

ALICE MATARISE

Cloud Engineering & Technical Operations

Cape Town, Western Cape | +27 81 059 9388 | minervamatarise@gmail.com | GitHub: github.com/SimplyAlice

PROFESSIONAL SUMMARY

Final-year BSc Information Technology (Software Engineering) student building toward a career in cloud engineering and technical operations. Combines a software engineering foundation with cloud services, software development, APIs, databases, and deployment experience. Seeking early-career opportunities in cloud support, cloud engineering, and technical operations.

EDUCATION

BSc Information Technology — Software Engineering

Eduvos, Cape Town | 2023 – Expected May 2027

Relevant coursework: Systems Analysis & Design, Database Systems, Network Security, Web Server Management, Operating Systems, IT Project Management.

PROJECTS

Dayform | Intelligent Day-Planning Application

[Live application](#) | [GitHub](#)

- Developed and shipped a full-stack application that converts natural-language intent into verified, timed itineraries.
- Built a Python/FastAPI backend with PostgreSQL and REST API integrations for venue and transport data.
- Developed the React/TypeScript frontend and deployed the application for live public access.

Cloud Resume Challenge | Serverless Cloud Portfolio

[Live portfolio](#) | [GitHub](#)

- Built a portfolio using Microsoft Azure services, including Azure Functions and Azure Table Storage, with GitHub Actions CI/CD.
- The current live portfolio uses Vercel for hosting and its serverless API, with Neon PostgreSQL backing the visitor counter.
- Troubleshoot cloud configuration, API integration, and deployment issues.

Career Connect | Project Manager & Frontend Android Developer

Academic team project | Six-person Agile student team

- Led research, UI/UX, implementation, and QA; coordinated frontend/backend integration.
- Developed Android frontend components using Kotlin, XML, Android Studio, and Material Design; managed Git/GitHub workflows.

TECHNICAL SKILLS

Cloud & DevOps: Microsoft Azure, Azure Functions, Azure Storage, GitHub Actions, CI/CD, Serverless Architecture

Development: Python, TypeScript, JavaScript, React, FastAPI, REST APIs, HTML, CSS

Data: PostgreSQL, MySQL, SQL, Database Design

Tools: Git, GitHub, VS Code, Troubleshooting, Systems Analysis, Kotlin, XML, Android Studio

TRAINING / CLOUD LEARNING

AWS Skills Center — Becoming a Cloud Practitioner

Classroom training completed September 2026. Completed four AWS cloud fundamentals classes with exposure to Amazon S3 and Amazon EC2.

Microsoft Azure Fundamentals (AZ-900)

Preparing for AZ-900, with planned progression toward AZ-104.

EXPERIENCE

Events Steward | Ignite Events

Cape Town | September 2022 – Present

- Coordinate fast-paced event workflows, manage competing priorities, and adapt to changing requirements.
- Collaborate with teams to support smooth event operations and delivery.

Marketing & Advertising Assistant | The Drain Surgeon Cape Town Central

Cape Town

- Coordinate with clients and partners while supporting delivery of marketing services.
- Work independently to resolve day-to-day operational challenges.

Administrative Assistant | Capriccio Arts Powered Pre-school

Cape Town | March 2022 – July 2024
